

WD ratings for receiver hitches are listed first and WC ratings second. If only one rating is listed, it is a WC rating. Hitches with only a WC rating are not designed to be used with a weight distributing system.

TW ratings are usually 10% of the WD & WC ratings unless noted in blue in the Vehicle column.

Electrical Connector Kits

Year ranges may differ from the year ranges for receiver hitches.

Kits provide 4-pin flat connector unless noted. See page 140 for Part 2 adapters.
